Pursuant to section 303, (Mobile home, Individual) (3 and 6) of the Polk County Land Development Code, mobile homes may be permitted within any platted residential subdivision, or single platted phase within a multiple phased development, in which 50 percent or more of the developed lots contain mobile homes; and on any un-platted parcel where 50 percent or more of all contiguous residential lots or parcels are developed with mobile homes. Contiguous lots and parcels are those that share a common boundary, but not including those that intersect only at a corner point. Lots or parcels that are otherwise contiguous except for intervening local roads shall be considered contiguous for this calculation.

This affidavit is to ensure that this condition is met. Prior to the issuance of any mobile setup permit being issued on any un-platted parcel or platted lot in a residential subdivision, this must be completed and notarized.

Section 103.4 of the Florida Building Code provides that a permit issued on the basis of a false statement or misrepresentation may be revoked.

I, \_\_\_\_\_, hereby affirm that Polk County Parcel number
