

PETITION TO ESTABLISH SPECIAL LIGHTING DISTRICT

We, the undersigned, request the Board of County Commissioners of Polk County, Florida to create and establish a special street lighting district and request the Board levy a special assessment on all the land in the district to pay for the lighting service.

The name of the proposed street lighting district will be:

_____.

Annual estimated cost is \$_____.

Number of parcels in lighting district: _____.

We hereby certify the following:

1. No part of the proposed lighting district lies within the corporate limits of any municipality.
2. The proposed street lighting district is NOT a part of a designated Neighborhood Revitalization Area.
3. The legal description of the proposed district is attached and shows the complete district.
4. The street lighting plan, as prepared by the utility company, showing proposed number and location of lights, is attached.
5. The annual estimated cost of installing and energizing the streetlights, as prepared by the utility company, is attached.
6. The petitioner's representative is _____.

Whose address is _____.

And whose daytime telephone number is: () _____ - _____.

The petitioners understand and agree that the initial assessment will include the installation costs and an administrative fee for maintaining the district. The petitioners further understand and agree that subsequent year's assessments will be based on the actual energy costs and an administrative fee for maintaining the district. The petitioners further understand that adding the costs and fees together and dividing the total number of parcels into the amount determine the cost per parcel. This lighting assessment will appear on the property tax bill mailed yearly to property owners.

IN WITNESS WHEREOF, the undersigned have executed this petition after examining it in full and all exhibits attached hereto.
