

RECYCLABLE MATERIAL COLLECTION

The goal of the Recyclable Materials Collection Program is to effectively collect materials that have the greatest potential to successfully be reused or recycled into new products or packaging.

Service Frequency: Weekly

Cart Description: Black with a Yellow Lid

Guidelines for Recyclable Material collection:

- Recyclable material must be curbside from 6 a.m. to 6 p.m.
- Roll cart must be within 3 feet of the curb or edge of the street or road
- Roll cart must be at least 3 feet from other fixed objects and vehicles
- No other container may be used for recyclable materials roll cart

Accepted Materials:

Aluminum cans
Tin/Steel cans
Tin or aluminum lids

Clean cardboard.

Plastic jugs (HDPE plastics)
Translucent color only. No
clear or colored plastics.

Newspaper or uncoated
paper.

Keeping recyclable materials dry and free of grease, soil and residue is the best way to ensure success. Avoid including items that can contaminate your cart. By keeping your roll cart lid closed, you will minimize contact with rain and keep your materials dry. Only items listed above should be placed in the recyclable materials cart; items not listed above, should be placed in the garbage roll cart.

When in doubt, leave it out!

Whenever there is a question about whether or not an item should be placed in the recyclable materials roll cart, place it in your garbage roll cart instead.

Items that are not accepted in our recyclable materials program can contaminate other good materials, decreasing their ability to be made into new products or packaging.
