

# **Basic Needs**

"All Polk County residents who are at risk because of health or economic status will have their basic needs met and become as selfsufficient as possible."

# Primary Factors for Achieving the Result

As shown below on the Basic Needs causal map, the primary factors affecting the Polk County Board of County Commissioners' (BoCC) ability to meet the residents' expectations are (1) a caring, collaborative community, (2) a healthy community and environment, (3) access to care, (4) access to housing, (5) access to income, and (6) the promotion of positive behavior.

# Strategies for Achieving the Result

The Divisions with programs within the Basic Needs Result Area submitted those programs to help the County achieve desired results utilizing one or more of the following strategies:

- 1. Provide a caring, collaborative community of services that meet basic needs
- 2. Ensure care for vulnerable members of the community
- 3. Promote healthy behaviors
- 4. Assist in obtaining access to housing
- 5. Assist in providing access to income

# **TRENDS AND ISSUES**

The programs in this Result Area are from the Health and Human Services Division. Citizens have indicated that they expect Polk County residents who are at risk because of health or economic status to have their basic needs met and become as self-sufficient as possible. To address this expectation, these programs focus on (1) providing a caring, collaborative community providing services that meet basic needs, (2) ensuring care for vulnerable members of the community, (3) promoting healthy behaviors, (4) assisting in obtaining stable livable, affordable, and supportive housing, and (5) facilitating access to sources of income. The narrative below presents the trends and issues affecting the basic needs related divisions and programs.

# Healthy Families Polk

Healthy Families Polk is a nationally accredited, home visiting program that provides services to families in Polk County.

Healthy Families empowers families to thrive through home visiting and parent support. The program focus on relationships and family-centered practice, building trusting bonds with families to help them set and achieve their goals. Expertly trained home visitors help families mitigate life challenges, address trauma, and become the best parents they can be. Healthy Families prevents abuse by empowering families to create safe, stable, nurturing homes where their children thrive.

For FY 22/23, Healthy Families Polk provided services to 452 families, which included 916 children in Polk County, using State and local match contribution funding.

Positive Outcomes:

- 98% of families served were free from maltreatment during services and one year after program completion of services
- 100% of children were connected to a primary health care provider
- 100% of enrolled primary participants were connected to a primary health care provider
- 99% of the program's target children were up to date with their well-child checks by age two
- 81% of the primary participants that close on Level 3, Level 4 or complete the program improved or maintained self-sufficiency while enrolled in the program.

# The Indigent Health Care Fund (IHC)

The Indigent Health Care Fund (IHC) funds access to health care services for low-income eligible County residents through the Polk HealthCare Plan government assistance health care program and other collaborative efforts with public and private health care providers that are funded by a voter-approved half-cent sales tax. In FY 20/21, IHC provided services to over 16,945 low-income residents and funded the County share of Medicaid cost for 220,413 Medicaid-eligible residents.

The proposed FY 22/23 budget for the IHC is \$137.8 million, an increase of \$37.5 million from the prior year adopted budget of \$100.3 million.

Expenses includes a \$10.0 million increase for program enhancements/services, a \$1.5 million increase for the Polk HealthCare Plan Claims, a \$668.0 thousand increase for state to local mandates, a \$337.0 thousand for Grants and Aids, a decrease of \$280.0 thousand on personnel/operating/indirect; a \$3.9 million increase in required reserves, and \$21.4 million for long term strategic spending plan of reserves.

Revenue includes \$67.9 million coming in from the half-cent sales tax, \$2.6 million coming from investments, recovery of medical claims, pharmacy rebates, and \$67.2 million carried forward from current year reserves and unspent funds.

A challenge faced on prior years has been the use of the excess reserves. The reserves are much larger than typical because County officials strategically decided to accumulate funds to cushion the impact if voters had not extended the sales tax, which was first enacted in 2004. In November 2016, voters approved an extension of the half-cent sales tax for 25 years and based on guidance from the Citizen's Healthcare Oversight Committee, the County began strategically spending down the excess reserves based on the strategic spending plan.

In August 2017, the Citizens Healthcare Oversight Committee approved the drawdown of \$7.6 million in excess in reserves to increase funding for health care services:

- \$3.8 million over a three-year period for the planned Winter Haven Hospital Graduate Medical Education (GME) residency program
- \$749,913 annually for a behavioral health jail transition program. The program engages qualifying Polk inmates with behavioral health conditions to ensure continuation of medications (including psychotropic) upon release from jail, as well as connecting to health care services, housing assistance, and other needs. Additionally, this program is intended to streamline healthy transitioning back into the community. The program has recently expanded access with the use of grant

dollars, to also target qualifying community residents who have, or are at risk of having, repeated institutionalizations (not necessarily repeated arrests but to prevent an arrest), or referred through community partners, in an effort to focus on prevention and early intervention.

• \$5.6 million awarded to agencies selected through a request for proposals providing additional direct services to qualified Polk residents

In March 2019, the Citizens Healthcare Oversight Committee approved the drawdown of \$5.3 million in excess in reserves to increase the Polk HealthCare Plan enrollment cap from 4,500 to 5,500.

In September 2021, the Citizens Healthcare Oversight Committee approved the drawdown of \$1.4 million to add outpatient behavioral health services as a benefit of the Polk HealthCare Plan. Also, increase to the income limit from 138% of the Federal Poverty Level (FPL) to 162% effective October 1, 2021.

As a result of the COVID pandemic in 2021, IHC reported a 5% decrease in primary care visits, 16% decrease in specialty care services, an increase of 18% in dental services, and an increase of 4% in behavioral health services. IHC proactively developed a web portal to allow the eligibility process to be completed in its entirety online, as well as permit telehealth services to help reduce barriers to residents obtaining services. The expansion and the offering of new telehealth services that were not previously covered enabled providers to care for their patients during this crisis.

In March 2022, the Citizens Healthcare Oversight Committee approved the recommendation to increase funding to the Grants and Aids programs in the amount of \$327,159 for primary care through free clinics, specialty care coordination, and dental services.

The current and long-term challenge is the strategic spending of the excess in reserves. Previously, the County strategically planned for annual funding to exceed annual revenues; however, COVID resulted in an overall reduction in services which led to a reduction in spending. Now, the County is working with community partners through outreach efforts to support residents accessing available health care services funded through this program; ultimately, resulting in increased use of funds and reestablishing the strategic spending plan.

Also impacting the program is the increase in the minimum wage in Florida, the possible increase in County local funding contribution as result of the increase in individuals eligible for Medicaid in Polk County, and how the health care landscape continues to evolve with changes in the Affordable Care Act and its Marketplace subsidies.

Administrative staff will revisit budgeting, programming, and health services impacts with the Citizens Health Care Oversight Committee in the coming months and year(s) to effectively respond to the ever-changing socio-economic needs of the community.

# **Polk County Veterans Services**

The primary mission of Polk County Veterans Services is to aid veterans and their families. This is done by addressing the basic needs while assisting in obtaining veteran benefits, privileges, and services. With over 65,000 veterans, Polk County has a large, highly decorated veteran population.

One of the challenges the department faces with the growing population of Polk County is the ability engage with the veteran community and informing them of the services we provide. To address this issue Veterans Services continues to participate in outreach events around the County such as the Lakeland Veterans Day Parade, Stand Down events, and events hosted by various Polk County service organizations. To further our engagement with outside organizations, we have held meetings with various departments within the VA administration, assisted living facilities, and hospices. Due to COVID, many of these events have been limited or had smaller community participation.

Veteran Services department has expanded with the creation of a new position called Assistant Veteran Service Officer (AVSO). This position is beneficial to the community by streamlining the veteran's appointments and allowing for triage, and therefore reducing appointment wait times. The growth of the department has seen a reduction in average appointment wait times go from 8 weeks down to 2 weeks. With the expansion to 6 VSO's and an AVSO it has allowed the veteran community to receive the best results with the utmost attention to detail.

Polk County Veterans Services has continued to collaborate with the community to bring services to the more rural corners of the County; the program has continued to offer services at two locations in Davenport, Lake Wales. Unfortunately, Veteran Services has had to discontinue service in our previous Lakeland location due to availability of office space. The Veteran's Office has worked diligently with various individuals about locating suitable space. We have re-engaged discussions with Lakeland Vet Center with hopes of being able to reopen at their facility soon.

# The Rohr Home

The Rohr Home is a 60-bed skilled nursing facility dedicated to providing the highest quality healthcare services and care to elderly and disabled residents of Polk County. Licensed by Florida's Agency for Health Care Administration (AHCA) and ranked as one of Florida's Best Providers by the American Health Care Association, the Rohr Home is listed as one of the top nursing homes in Florida with a five-star rating by Medicare.gov. The facility provides long-term nursing care, short term-nursing care, and rehabilitative care following hospitalization to residents. Reimbursement rates are based on The Centers for Medicare and Medicaid Services (CMS), and the Patient Driven Payment Model (PDPM).

Continued strain on the Rohr Home and skilled nursing industry due to the inability to recruit and retain staff, a decreasing talent pool, minimum wage salary mandates and decreased resident census has resulted in a decision by the Board of County Commissioners to sell the facility. On August 24, 2022, a bid for the sale of the Rohr Home was opened. On September 1, 2022, a Notice of Recommended Award to Topaz Fiscal Services was posted.

For FY 22/23, the Rohr Home will operate at levels based on the facility's ability to meet mandated staffing requirements while ensuring that current residents receive quality care and are safe as the Rohr Home transitions to the new owner.

# **Burials and Cremations**

Program Number:	1411
Result Area:	Basic Needs
Division:	Health and Human Services
Section:	Indigent Health Care

#### I. Program Offer Description:

The burial program is State mandated by Florida Statute 406.52 which requires counties to bury or cremate indigent and unclaimed individuals who pass away in the county. This program preserves the human dignity by providing a respectful and dignified burial or cremation for the indigent and unclaimed deceased having no funds for a proper burial. The burial program clearly demonstrates the caring, collaborative community by providing a respectful and dignified burial or cremation for the indigent accessed.

# II. Contribution to Result:

This budget is for County burials or cremations of indigent or unclaimed Polk County residents who are required to be buried or cremated at public expense as mandated by Florida Statute 406.52. In FY 20/21, the program paid for 308 cremations with the cost not exceeding \$575 each.

This Program is: Not Mandated ( ) Mandated

# Criminal Justice Mental Health/Substance Abuse Reinvestment Grant

Program Number:	1706
Result Area:	Basic Needs
Division:	Health and Human Services
Section:	

# I. Program Offer Description:

The Criminal Justice Mental Health/Substance Abuse (CJMHSA) reinvestment grant funds, target a forensic population with the purpose of breaking the cycle of recidivism for those with mental illness and/or substance abuse disorders. Polk County was awarded two CJMHSA Reinvestment grants that had overlapping timeframes and ran concurrently for a period of 19 months. The grants funded two separate programs, Forensic Intensive Case Management (FICM contract ended 4/30/20) and Roots Housing and Benefits Program (Roots contract end 2/28/22). Polk County was awarded a third CJMHSA Reinvestment grant, Helping Achieve Targeted Comprehensive HealthCare (HATCH) that started on 3/1/22.

# II. Contribution to Result:

The CJMHSA reinvestment grant establishes the framework needed to target individuals identified as a high risk for arrest, rearrest, or civil commitment and divert them from jail and/or the State hospital into community treatment and services. The FICM Program provided a team of staff focused on providing case management services, the FICM contract ended 4/30/20. The Roots Program zeroed in on those leaving jail who are homeless or lack stable housing and who have particular challenges with self-sustaining in the community. Roots contracted with Tri-County Human Services to provide Housing and Benefits specialists (two positions) and assist with housing needs. HATCH contracts with Tri- County to provide a Housing Specialst and a case manager and with Peace River Center to provide a Mobile Crisis Support Counselor position. Program management of the program is the responsibility of Polk County. The goal of this program is to successfully divert the clients engaged in the program from jail or the State hospital, thus generating a cost savings to the County while improving public safety and individual outcomes.

Program Number:	46
Result Area:	Basic Needs
Division:	Health and Human Services
Section:	Healthy Families

# I. Program Offer Description:

Healthy Families Polk is a nationally-accredited home visiting program for expectant parents and parents of newborns experiencing stressful life situations. The program improves childhood outcomes and increases family self-sufficiency by empowering parents through education and community support. Parents voluntarily participate in Healthy Families so they can learn how to recognize and respond to their babies' changing developmental needs, use positive discipline techniques, cope with the day-to-day stress of parenting in healthy ways, and set and achieve short- and long-term goals.

#### Contribution to Result: П.

Expectant families and families with newborns that are less than three months old who reside in Polk County are offered services by a trained professional to determine if there is a need for home visiting services. Services are designed to weigh risk factors associated with poor childhood outcomes that can be addressed by Healthy Families services. Eligible families who accept services are assigned to a trained worker to work with them in their homes.

Home visits are designed to enhance parents' ability to create stable and nurturing home environments and help develop positive parent-child relationships by:

- working with parents to build on their existing strengths and minimize potentially harmful behavior 1.
- 2. conducting home safety assessments
- 3. modeling positive interaction with the participant's child
- 4. helping parents understand their child's capabilities at each developmental stage
- 5. providing parents with greater knowledge of alternative forms of discipline
- 6. helping parents develop skills to increase their sensitivity and responsiveness toward their child's needs and cues

7. helping parents cope with the everyday stress of raising a child by listening to their concerns and providing information on stress management

~	
8.	helping families build natural support systems by connecting them to peer support groups, faith-based organizations,
and r	neighborhood groups

- 9. developing family support plans to help families set and achieve goals that lead to greater self-sufficiency
- 10. helping parents better manage their lives through life skills

In addition, home visits promote child health and development and help ensure that the families' social and medical needs are met by:

1. linking the parents and children to a medical home

2. motivating parents to access prenatal care, timely well-baby care, and to get their child's immunizations according to schedule

- 3. helping mom understand the importance of taking care of her own physical, emotional, and social needs
- 4. helping mom and dad prepare for the birth of their baby
- 5. linking families to other services in the community they may need beyond home visiting services such as mental health, substance abuse, and domestic violence services
- educating parents on the benefits of spacing between pregnancies 6.

7. providing developmental screenings to help detect potential delays and making referrals to appropriate services to address suspected delays

# Significant Changes

The program eliminated one family assessment worker position and reclassed the remaining family assessment worker positions. Due to increased educational and experience requirments from the state, the remaining four workers were reclassed from a pay grade 8 to a pay grade 10 and given the title of Family Engamement Specialists.

# **Indigent Health Care**

Program Number:	53
Result Area:	Basic Needs
Division:	Health and Human Services
Section:	Indigent Health Care

# **Program Offer Description:**

The Polk County's Indigent Health Care (IHC) is a program administered by the Health and Human Services Division pursuant to Polk County Ordinance No. 03-89, adopted by the Board of County Commissioners on December 3, 2003. On November 2016. Polk County voters approved a 25-year extension effective 2019. IHC functions as a health care safety net program that provides access to health care services for low-income uninsured County residents who qualify for services. The division manages two health care delivery systems:

1. The Polk HealthCare Plan (PHP):

A comprehensive local health care program that serves County residents with incomes up to 168% of poverty through a network of contracted providers. Residents qualifying for the Polk HealthCare Plan have access to primary care, specialty care, hospital services, medications, and diagnostics.

2. Grants and Aid contracts that are designated to serve those that either may not qualify for the Polk HealthCare Plan and don't exceed 200% of the Federal Poverty Level, or the services needed are not a covered service under the Polk HealthCare Plan. Services could include teen pregnancy prevention, prescription assistance programs, residential treatment, volunteer clinics/Specialists, and more.

Additionally, the IHC fund pays for County-mandated health services that include the County's share of Medicaid cost. Health Care Responsibility Act (HCRA), Mental Health Substance Abuse (MHSA), and Florida Department of Health (FDOH) core public health services. For more detail about mandates see program number 146.

#### **Contribution to Result:** П.

Based on the 2020 US Census Bureau of Statistics, approximately 11.5% of the Polk County population is uninsured. Lowincome residents continue to face socio-economic challenges resulting in limited access to health insurance. Through the IHC, Half Cent Sales Surtax, in 2021 the Polk County's health care safety net program served 19,600 low-income uninsured adult residents at or below 200% of the Federal Poverty Level. Additionally, the IHC program funded the County share of Medicaid cost for approximately 220,413 Medicaid-eligible residents in Polk County. Inidgent HealthCare contracts with approximately 149 primary care providers, 727 specialty providers, five hospitals, two urgent care groups, and 22 community partners. The community partners represent the public-private and not-for-profit partnership that assists with primary and specialty care, prescription assistance, dental care, teen pregnancy education, mental health, and substance abuse.

Thi	s Program is: Not Mandated ( )	Mandated: Federal ( ) State ( ) Local ( X )
III.	Performance Objectives:	
1	Provide a comprehensive Polk Healthcare Plan to indigent resid the Federal Poverty Level	dents of Polk County with incomes at or below 162% of
2	Provide an alternative, convenient, and cost-effective method of incomes at or below 200% of Federal Poverty Level	f health care to indigent residents of Polk County with
3	Provide funding for mandated health services as required by Flo	orida Statute

Provide access to the County's Health and Human Services electronic information system (FamCare) to community partners and other agencies for eligibility determination and client data reporting

# **Indigent Health Care Mandates**

Program Number:	146
Result Area:	Basic Needs
Division:	Health and Human Services
Section:	Indigent Health Care

# I. Program Offer Description:

The Health and Human Services Division administers the County's Indigent Health Care program (IHC) funded by a half-cent sales surtax. IHC functions as a health care safety net program that provides access to health care services for low-income uninsured County residents who qualify for services. The division manages two health care delivery systems: 1. The Polk HealthCare Plan (PHP):

A comprehensive local health care program that serves County residents with incomes up to 162% of poverty through a network of contracted providers. Residents qualifying for the Polk HealthCare Plan have access to primary care, specialty care, hospital services, medications, and diagnostics.

2. Community Partner Programs: Public-private and non for profit partnerships with outside funded agencies offer a variety of health care programs that serve County residents with incomes of up to 200% of the poverty level that do not qualify for Medicaid or are unable to afford coverage through the healthcare marketplace. Additionally, the IHC fund pays for the following County mandated health services: County share of Medicaid cost, Health Care Responsibility Act (HCRA), Mental Health Substance Abuse (MHSA), and Florida Department of Health (FDOH) core public health services. The Polk County's IHC program is administered pursuant to Polk County Ordinance No. 03 89, adopted by the BoCC on December 3, 2003. On November 2016, Polk County voters approved a 25-year extension effective 2019.

# II. Contribution to Result:

Polk County's mandated health services are: 1) Medicaid is a jointly-funded health program for eligible low-income individuals. Chapter 409.915 of the Florida Statutes requires each county to match funds provided by the Medicaid program. 2) The Health Care Responsibility Act (HCRA) for indigent patients places the ultimate financial obligation for an indigent patient's out-of-county emergency care on the county in which the indigent patient resides. Chapter 154, Sections .301 - .331, Florida Statutes, and Rule Chapter 59H-1.001-.015, Florida Administrative Code. 3) Alcohol, drug abuse, and mental health services provided in Polk County by Tri-County Human Services (TCHS) and Peace River Center (PRC). Chapter 394.76 of the Florida Statutes requires local match participation on a 75-to-25 state-to-local ratio for contracted community alcohol and mental health services and programs, in accordance with the Tenth Judicial Circuit of Florida. 4) The County Health Department (FDOH) was created to promote public health, control and eradication of preventable diseases, and provision of primary health care for low-income population. Pursuant to Chapter 154 of the Florida Statutes to "promote, protect, maintain, and improve the health and safety of all citizens and visitors of the state through a system of coordinated county health department services."

This	s Program is:	Not Mandated()	Mandated: Federal () State (X) Local ()	
III.	Performance C	Objectives:		

1 Provide County local contribution for Medicaid

2 Pay for indigent patients' out-of-County emergency care per HCRA

3 Provide County local contribution for patient access to alcohol, drug abuse, and mental health services

Provide contribution to County Health Department mandated to promote public health, control and eradication of

4 preventable diseases, and provision of primary health care for the low-income population

#### I. Program Offer Description:

The Rohr Home provides high-quality twenty-four hour skilled nursing services to the residents of Polk County. Consistently ranked among Florida's best providers by the American Health Care Association, the Rohr Home has been committed to excellence for more than forty years. Licensed therapists provide physical, occupational, and speech therapy, helping residents to achieve maximum functional capacity and return home in the shortest possible time. As a locally-operated facility, the Rohr Home not only delivers healthcare to the aging and convalescing but also generates jobs and income for the residents of Polk County. Additionally, the facility serves as an opportunity for the elderly and convalescing to remain connected to the community through numerous volunteer and clinical training programs for local area schools and colleges.

# II. Contribution to Result:

Built in 1962 as a retirement home, the Rohr Home has been maint Through improvements to the structure and programs, as well as the	e dedicated staff of the facility, it serves as an example of				
modern, high-quality, and humanistic long-term care by currently be Health Care Association Bronze and Silver National Quality Awards					
Medicaid, private insurance, and private pay funding streams. As a					
Home is regulated by the Agency for Healthcare Administration (AH					
as well as the Florida Department of Health and Polk County Board					
bodies include Florida Long Term Care Ombudsman Program, a di	vision of the Florida State Department of Elder Affairs,				
and Polk County's Clerk of Court, auditor to the Board.					
Services made available to both long- and short-term residents and	their families, when applicable, include:				
24-hour continuous care by licensed nursing staff					
Residential needs, including dietary, housekeeping, and laundry se					
Scheduled/onsite physical therapy, occupational therapy, speech t	herapy rehabilitative services, and optometrist visits				
Scheduled/onsite dental and podiatrist visits					
Scheduled/onsite registered dietician visits					
Scheduled/onsite pharmaceutical services					
Scheduled/onsite laboratory and radiology services					
Scheduled/onsite mental health and social worker services					
Scheduled/onsite and offsite social events					
Scheduled/onsite salon services for men and women residents by	a professional hairdresser				
Wound care					
Daily activities to maximize cognitive functioning					
Weekly spiritual services for multiple religious denominations	items and comises				
Maintenance of resident personal spending accounts for personal	items and services				
Application services for financial assistance programs					
Home Health programs					
This Program is: Not Mandated (X)	Mandated: Federal() State() Local()				
III. Performance Objectives:					
Provide the finest resident-centric long-term and rehabilitative	Provide the finest resident-centric long-term and rehabilitative care, enabling each resident to realize their highest levels				

Provide the linest resident centric long-term and rehabilitative care, enabling each resident to realize their highest revels
 of physical, mental, and psycho-social well-being
 Serve as a model of modern, quality long-term and rehabilitative care, thereby attracting residents and families in need
 of services, plus volunteers and students who seek practical experience in long term and rehabilitative care

Operate in a fiscally-responsible manner to ensure long-term viability as a service to the residents of Polk County
 Comply with all federal, state, and local regulatory/oversight agencies in a manner that meets or exceeds mandated expectations for positive outcomes, including safety, quality of life, and financial stability

# **Significant Changes**

Continued strain on the Rohr Home and skilled nursing industry due to the inability to recruit and retain staff, a decreasing talent pool, minimum wage salary mandates, and decreased resident census has resulted in a decision by the Board of County Commissioners to sell the facility. On August 24, 2022, a bid for the sale of the Rohr Home was opened. On September 1, 2022, a Notice of Recommended Award to Topaz Fiscal Services was posted. As this was after the budget process had been completed, there is still an operating budget in place for FY 22/23 and for the plan year 23/24.

#### Significant Changes

A position reclass was approved from Healthy Familes, adding an Assistant Veteran Services Officer. This position will complete preliminary paperwork prior to veterans appointments with the VSOs, thereby streamling office functions and reducing backlog in appointment wait time.
